## WATERBLASTING MACHINERY APPLICATIONS

Housewash	800 – 1000psi with chemical
Commercial Building Wash	2000psi with chemical
Prepaint preparation wooden surfaces	3000psi Fan type jet
Prepaint preparation concrete blocks	3000psi Rotary jet
Cedar and Timber Decks	800psi with chemical
Concrete	3000psi with Rotomajic
Truck washing and vehicles	1500psi with chemical
Cleaning mud off contract machinery	3000psi with Rotary jet
Scabbling concrete	3000psi with Rotary jet
Paint removal	3000psi paint stripper
Cleaning mechanical parts-oil and grease	1500psi chemical or hot water
Workshop floors	3000psi with chemical

Where chemical is not used to initially emulsify grime or release moss, mould or lichen then pressure may need to be increased, however care should be taken that damage does not occur on substrate materials.
